

ENERGY LEGS
After Care Guide

WASHING

- You may machine wash your support, but hand washing may help extend the life of your product
- Machine wash in cold/cool water, using the gentle or delicate cycle setting
- Wash with similar colors using any regular laundry detergent with no additives (no fabric softener)
- We recommend using a mesh washing bag

DRYING

- Lay flat to air dry, do not hang to dry as it may result in stretching
- Do not put garments in the dryer
